Description :

PDF-c85a9 | Throw your preconceptions about light-painting out the window and prepare for a creative journey that will revolutionize your photography. Light painting is a classic photography technique that involves selectively illuminating sections of a dark subject by moving a light source (like a flashlight) over the subject during the course of a seconds- or minutes-long exposure. This results in uniquely ... *Painting with Light: Lighting & Photoshop Techniques for Photographers, 2nd Ed*
